		<ul style="list-style-type: none"> • Therapist will only take linens into the venue that will be used during the appointment (unused linens taken into venue must not be subsequently used, but must be placed into dissolvable laundry bag for washing). • Therapist will sanitise hands before entering and regularly throughout their visit. • Therapist will don shoe coverings if required by customer and take equipment into the treatment room and set up ready for treatment without the customer in the room. Therapist will touch as few surfaces/client belongings as possible including seating. • Therapist will avoid using customers bathroom. If required therapist will take sealable bag for used PPE and fresh PPE (in a sterile bag) to the bathroom, and replace PPE before leaving bathroom. • Therapist will sanitise all their own equipment as the treatment area is set up. • Following session, therapist will place all waste material into a sealable bag, place all laundry in sealable bag, and sterilise all their own equipment before placing outside of the venue. Once ALL equipment is outside, therapist will bid farewell to customer, remove PPE placing in a sealable bag and put all equipment in the car. • At the end of each day, therapist will seal bag containing used PPE and place in non-recyclable waste bin. Laundry will be placed directly into washing machine without opening dissolvable
